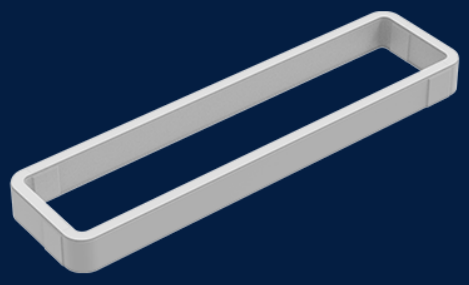
HS9 STAKKABOX™ ULTIMA RISER KIT 150MM

Product Code: 50202775

STAKKAbox™ ULTIMA Connect HS9 RISER KIT increases the height of the Ultima Connect HS9 pit. It was designed for an ease of transportation and quick assembly. Each riser kit will increase the height of the HS9 pit by 150mm and multiple can be stacked on top of each other to gain more height.



MATERIAL
Various

SIZE
2035mm (L) x 535mm (W) x 160mm (D)

LOAD RATING
B

Features & benefits

STAKKAbox™ Pegs

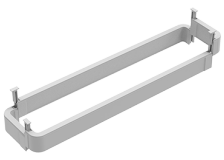
STAKKAbox™ pegs were made to be hammered into place to assemble the ring. No other tools are required.

Lightweight parts

Can be transported by a ute and assembled by a single person without the need of heavy lifting machinery.

Quick assembly

Can be completed start to finish within minutes.



Full specifications

Material	Glass-reinforced plastic (GRP), is a composite material, fibre-reinforced polymer made of plastic reinforced by fine fibres made of glass. GRP has a high strength-to-weight ratio, high-temperature range, high mechanical properties and is fire retardant. Additionally, GRP is also chemically inert and isn't susceptible to creep.
How it works	Each riser kit will increase the height of the HS9 pit by 150mm and multiple can be stacked on top of each other to gain more height. STAKKAbox™ pegs were made to be hammered into place to assemble the ring. No other tools are required.
