STAKKABOX™ ULTIMA RING RIGHT 1200X800MM

Product Code: 50208066

The next generation in access pit systems. A modular, scalable solution built on-site with easily connectable components significantly reduces costs of in-situ construction through ease of installation, providing a significantly faster installation than conventional alternatives.

MATERIAL
Glass-Reinforced Plastic (GRP)

SIZE
(L) x (W) x (D)

LOAD RATING
D

Features & benefits

Flat Pack Option

STAKKAbox™ ULTIMA can be shipped ‘flat packed’ to reduce shipping costs.

Flexibility in Construction

Duct entries can be quickly and safely formed on site. Overbuilding or benching is easily achieved. Fine top level adjustment is possible by horizontally cutting the top section.

Fast and Easy to Install

ULTIMA Connect pits are significantly faster to install than conventional alternatives, with complete installations typically taking up to one hour. This results in reduced costs for the installer.

Full specifications

Material	Glass-reinforced plastic (GRP), is a composite material, fibre-reinforced polymer made of a plastic reinforced by fine fibres made of glass. GRP has a high strength to weight ratio, high temperature range, high mechanical properties and is fire retardant. Additionally, GRP is also chemically inert and isn’t susceptible to creep.
How it works	ULTIMA ring pieces are manufactured in left and right ‘handed’ designs, which offer the ability to offset joints between sections in order to provide a brickworked design.
