

GUARD GOAL POST SET – 2X POSTS, 2X BASES, 1X FLAGS

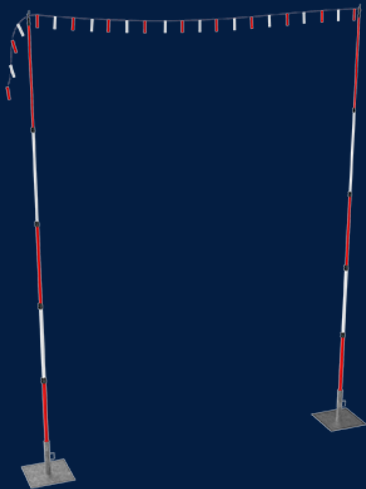

Product Code: 50201373

Guardian Goalposts are a lightweight and non-conductive telescopic pole system providing highly visible proximity warning of nearby overhead cables on construction sites.

 MATERIAL
Glass-Reinforced Plastic (GRP)

 SIZE
7000mm (L) x 60mm (W) x (D)

Features & benefits

Lightweight

Guardian Goalposts are light in weight allowing for them to be easily transported around a site with a reduction in health and safety concerns associated with heavy lifting.

Fast and Easy to Install

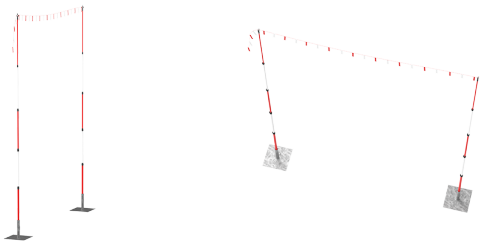

Guardian Goalposts are rapidly and easily assembled to 6 m high (19 feet) by one operative, then packed up and transported to the next site after use.

Strong and Structural Design

Guardian Goalposts can be used time and time again due to their robust build quality. The posts are manufactured in non-conductive GRP with each post fixed in weighted bases, fabricated in galvanised steel and can be marked with your company information.

Full specifications

Material	The posts are manufactured in non-conductive GRP and are linked together by bunting or a solid telescopic cross bar.
How it works	Guard Goalposts are erected using two telescopic poles, positioned within two weighted galvanized steel bases. Warning bunting is tied around two brackets with the assembled system positioned on site.
