Features & benefits

Hinged for OH&S

GMS cover range is hinged to meet OH&S standards, ensuring a safe and easy lift of the covers.

Custom branding available

Customisation of our GMS covers is available to showcase your company's branding and/or the cover's unique application.

Nationally approved for key industry authorities

Our GMS cover range has been approved for use by key industry authorities across various sectors, including telecommunications, energy, rail and defence.

Full specifications

Material

GMS covers are constructed from galvanised mild steel to prevent premature rust and corrosion, thereby increasing the lifetime of the cover. GMS material provides a strong and robust solution for asset protection.

Australian Standards

GMS cover range is designed and built up to a Class D load rating, meeting the Australian Standard AS/NZ 3996.

Load Rating

GMS covers are manufactured up to a Class D load rating (ultimate limit state design of 240kN) under the Australian Standard AS/NZ 3996.
