B

Features & benefits

Manufactured by Injection Moulding Process

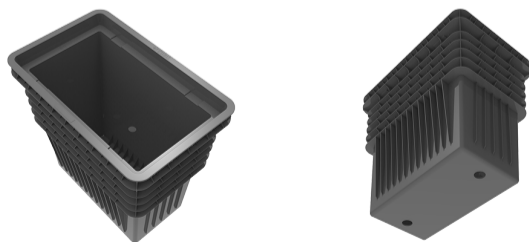

Our lightweight P5 Plastic Pits are manufactured by injection moulding process using virgin polypropylene (PP) material and meet the stringent requirements for installation and long-term use.

Variability in Size

We offer injection moulded pits in P2 and P5 sizes to ensure you have the right pit for your project.

A Range of Cover Options Available

Class A and B covers are available for MONObox™ P5 Plastic Pit INJ. Including concrete, composite, cast iron and GMS cover, moulded extensions risers are also available as options.

Full specifications

Load Rating

Our MONObox™ plastic pits are manufactured to a Class B load rating (ultimate limit state design load of 10kN) under the Australian Standard AS/NZ 3996.
