

# AX S™ P6 COVER CONCRETE NBN CLASS A

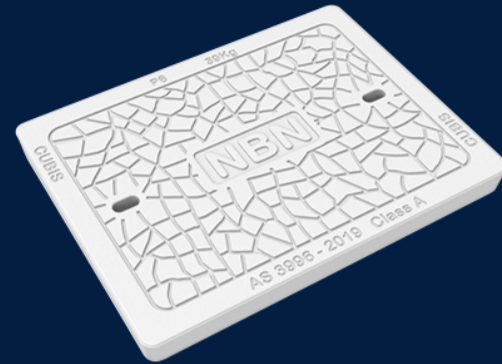

Product Code: 50201078

## iDS™ COVER CONCRETE P6 NBN CLASS A

 MATERIAL  
Precast Concrete

 SIZE  
651mm (L) x 499mm (W) x 50mm (D)

 LOAD RATING  
A

## Features & benefits

### Steel Reinforce for Increased Strength

Our precast concrete covers are manufactured using minimum 40MPa steel-reinforced concrete to ensure the cover's strength and integrity.

### Nationally approved for key industry authorities

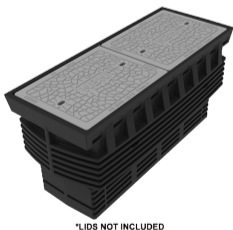

Many networks and asset owners have approved our precast concrete cover range for specific project requirements.

### Variability in size

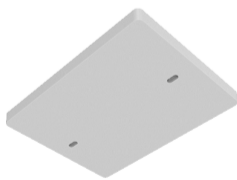

Our range of precast concrete covers come in a variety of sizes to ensure you have the right cover for your project.

## Full specifications

Material	High strength concrete has a compressive strength of 40MPa or greater. Infrastructure Products Australia manufactures their precast concrete covers using steel-reinforced concrete to ensure a minimum of 40MPa. This ensures that the covers remain durable and robust throughout their lifetime.
Load Rating	Infrastructure Products Australia's precast concrete covers are manufactured a Class A load rating under the Australian Standard AS/NZ 3996. This makes our precast concrete covers suitable for areas accessible by pedestrians.
